

# Key Stage 1 Teacher Assessments

## The Data

There are minor changes to the data being collected at Key Stage 1 in 2019.

There is a range of possible performance categories for each subject, you can see these illustrated in the table below.

The target for every child is to be working at the expected standard (EXS). However, there are categories for those working at greater depth (GDS), and those working lower than the expected standard (WTS, HNM, PK1–PK4, BLW).

Reading, writing and maths have the same categories, but science only uses EXS or HNM.

The table below shows the data items collected for each child.

<b>High Attaining</b>	<b>GDS</b> Working at greater depth within the expected standard			N/A
