

SECTION 4 – BUILDING PLANS

The following colour coding has been used on the plans to identify large areas of asbestos, areas from which asbestos has been removed, areas not surveyed and buildings built after 1990 and unlikely to contain asbestos:-

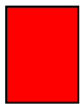

- Sprayed coatings to ceilings and ceiling tiles.

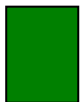

- Floor tiles.

- Areas from which asbestos has been removed.

- Areas not inspected due to access being unavailable.

- Buildings built after 1990 and unlikely to contain asbestos.

- Rooflight linings.

- Panel over / under.
