

Behaviour Inclusion Team

Free offer of guidance, advice and support to aid; inclusion of pupils with SEMH needs, the prevention of suspension and exclusion and supporting reintegration into education.

Behaviour Inclusion Officers (BIOs) work closely with schools and Local Authority colleagues. We offer an initial consultation with schools followed by an in-person visit to provide advice on:

- Practical strategies that cultivate an inclusive climate within the classroom to make learning accessible to all
- Bespoke strategies to support a young person to be better equipped to manage within a mainstream setting
- Support to develop trauma informed relational practice in school
- Strategies that support the young person and key adults to build a relationship based on mutual respect
- Next steps that will support the young person to experience success in school
- Next steps for accessing any other appropriate external support available
