

Oxfordshire Community Churches

Introduction:

Oxfordshire Community Churches have church congregations working with communities across Oxfordshire. From Banbury in the north to Henley in the south, and from Witney in the west to the City of Oxford, the churches have grown up over the last 35 years. These churches have a charismatic evangelical perspective, which values community involvement and serving local primary and secondary schools. They have many skilled pastors, teachers, youth workers and volunteers who they can recommend to lead sessions for you at your school. They are willing to run events, take a class lesson, or to play a smaller role as part of a panel to be quizzed on Christian views. If you want a friendly, inclusive, informed, free, Christian perspective, do not hesitate to contact us.

Topics & perspectives:

Speakers for Christian assemblies, eg on Christian festivals, or chosen Christian themes
Heaven and the after-life
Christian views on marriage and sexual identity for secondary lessons
Christian perspectives on other religions
Christian symbolism and traditions
Perspectives on miracles and the supernatural (eg speaking in tongues, the resurrection)
Christian views of science
The creation v evolution debate
And all other aspects considered in the Oxfordshire Agreed Syllabus

Contact details:

Oxfordshire Community Churches Central Office:
The King's Centre, Osney Mead, Oxford, OX2 0ES.
Tel 01865 297420. Email SteveJ@occ.org.uk
